

AeroTEK, the nation's largest aerospace staffing agency, is focused on assisting employers find highly qualified technicians using the contract-to-direct employee model. Since successful contract technicians could be offered direct employment, AeroTEK is only interested in technicians who meet or exceed the knowledge and skills required by the employers they serve. Unfortunately, many technicians grossly overstate their knowledge and experience, forcing AeroTEK and/or employers to either perform pre-employment assessments or just take their chances. There is a better way!!!

Learn more about [AeroTEK](#).

As a SpaceTEC® certified technician you have demonstrated the knowledge and skills identified by industry leaders. Employers can look at the standards industry demanded and have confidence that your knowledge and skills meet or exceed those standards. And now, in recognition of SpaceTEC®'s credibility within the aerospace industry, AeroTEK and SpaceTEC® have partnered to promote employment of certified technicians to employers nationwide.

The first step is to grow a pool of certified technicians that AeroTEK can promote and employers can hire. WE NEED YOUR HELP!!! We strongly encourage you to allow AeroTEK to add your name to their database, whether you are looking for employment now or just opening doors for the future. There is no commitment to accept any job offer. To start the process just respond to this email in the affirmative, giving SpaceTEC® permission to provide your contact information and certification information to AeroTEK (please update if any information has changed). AeroTEK will follow up with you regarding completion of their application.

This partnership is a large step forward with the potential to greatly benefit you, employers, AeroTEK, and SpaceTEC®. We strongly encourage your participation.

Please [contact](#) SpaceTEC® staff to let us know if you are interested in opting in.
